

High grade greases, oils, pastes, sprays, cleaners and lubrication systems

The LUBCON lubricating and cleaning agents enable a quick, clean and economical lubrication in all industrial maintenance and service areas. The extensive portfolio of LUBCON aerosols includes high-performance greases, oils, pastes, bonded coatings, silicone sprays, release agents and adhesive lubricants, designed for all industrial applications. Whether for the disassembly of seized-up screws or for the lubrication, surface coating, cleaning and preservation of parts – we have the right lubricant spray.

Management of the entire lubrication process

LUBCON's extensive portfolio also includes services such as laboratory analysis of lubricants and bearings, root cause failure analysis, grease life calculations and comprehensive management of the entire lubrication process. Our focus is to provide sustainable cost saving solutions by using the right products and methods, leading to reduced consumption, extended lifetime, reduced downtimes and a minimized number of different stock items.
